

**SUBJECT: Changing your dial-up phone number**  
**PLATFORM: Windows 98**

## Open Dial-Up Networking

From the Windows 98 Desktop:

1. Double-click on the **My Computer** icon.
2. In the new window, double-click on **Dial-Up Networking**.

## Changing the Phone Number

Right-click on the **paradise** dialler, and then left-click on **Properties**.

Delete any entry in **Area Code**.

In **Telephone number**, type:

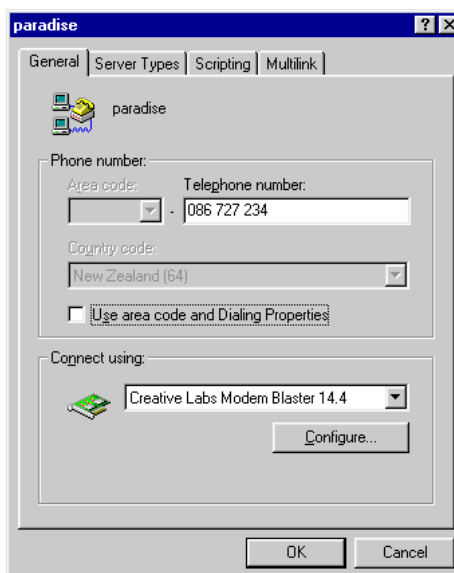

**086 727 234**

**Hot Tip!** If you have Call Waiting and would like to disable it temporarily, then just prefix the number with either \*52 (for Telecom) or #29 (if you are connecting from Wellington or Christchurch and your phone number starts with 9).

Click **Next** and then click **Finish**

## Congratulations!

You have now changed your paradise.net dial-up number.
