## Make New Connection Wizard

You should be on the first page of the **Make New Connection** wizard, with the default new connection name highlighted in blue (probably My Connection).

If, however, you are at a screen for installing a new modem then you will have to complete that process before you can continue setting up the paradise connection.

**Please note:** TelstraClear does not support the installation of modems. If you aren't sure how to install your modem software then you must seek professional assistance

Delete the name and type **paradise**

Click **Next**

Delete any entry in **Area Code**  
In **Telephone number**, type:

**086 727 235** - Wellington local calling zone  
**086 727 234** - Rest of New Zealand

**Kapiti Coast Customers** who have Saturn lines must use the Wellington number **086 727 235**.

**Kapiti Coast customers** who have Telecom lines must use the Rest of NZ number **086 727 234**. This includes Telecom customers who have the upgrade allowing zero charges for Wellington calls.

**Hot Tip!** If you have Call Waiting and would like to disable it temporarily, then just prefix the number with either #29 (for Saturn) or \*52 (for Telecom).

Click **Next** and then click **Finish**

The screenshot shows the 'Make New Connection' wizard window. On the left is an image of a computer monitor and a telephone. The main area contains the following fields and controls:

- Type a name for the computer you are dialing:** A text box containing 'paradise'.
- Select a device:** A dropdown menu showing 'Lucent 56K USB Modem' with a 'Configure...' button to its right.
- At the bottom are three buttons: '< Back', 'Next >', and 'Cancel'.

The screenshot shows the 'Make New Connection' wizard window at the second step. On the left is the same image of a computer monitor and a telephone. The main area contains the following fields and controls:

- Type the phone number for the computer you want to call:** This section includes:
  - Area code:** A dropdown menu.
  - Telephone number:** A text box containing '086727234'.
  - Country or region code:** A dropdown menu showing 'New Zealand (64)'.
- At the bottom are three buttons: '< Back', 'Next >', and 'Cancel'.

You will see a new icon called **paradise**. Right-click on the paradise icon and then left-click on **Properties**.

You will be on the **General** tab (image at right)

- The Country code should be **New Zealand (64)**
- Remove the tick from **Use area code...**

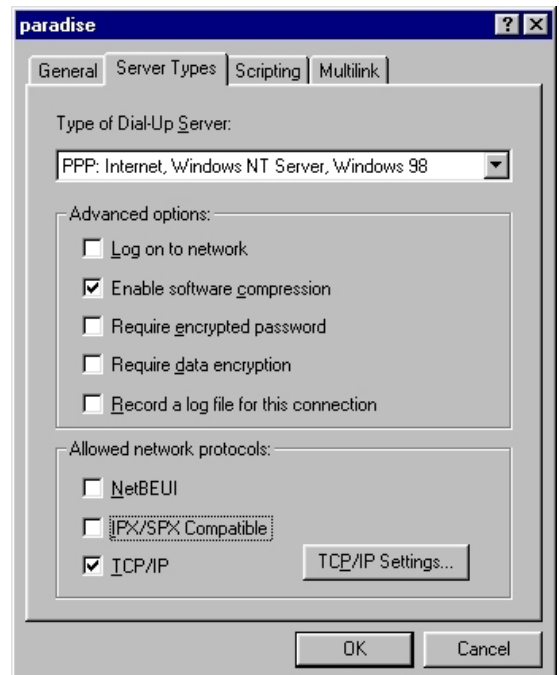

At the top, click on the **Server Types** tab

#### Type of Dial-Up Server

- PPP: Internet, Windows NT Server, Windows 98
- **Disable** Log on to network
- **Enable** software compression
- **Disable** Require encrypted password
- **Disable** Require data encryption
- **Disable** Record a log file for this connection
- **Disable** NetBEUI
- **Disable** IPX/SPX Compatible
- **Enable** TCP/IP

Double-check please. There should be PPP: Internet... as the option at the top and only two ticks on the whole screen. Don't worry about **TCP/IP Settings** as the default settings will work fine.

Click **OK**

You will be back in the **Dial-Up Networking** window

Right-click on the paradise icon and then left-click on **Create Shortcut**

Windows will sharply prompt with the following warning:

Click **Yes** and then close the Dial-Up Networking window and close My Computer

There will be a new icon on your desktop called **shortcut to paradise**

**Congratulations!**

That's it. If you haven't already done so, you should continue with the set-up documents for **Internet Explorer** and **Outlook Express**.
